Tips

- How do I select the correct event?
 - > Event's complete date typically corresponds to date on the approval letter.
 - > Event's Instance/UDF lists detailed information of items listed in the approval letter.
 - > Amendment events: submissions of updates to protocol, drug/device documents (e.g., IB), consent/assent forms.
- What attachment types may I see?
 - > Approval letter as type Approval letter.
 - > Any associated approved documents will have a type with APPROVED in its name.
 - > REDLINES for records are for sites that complete their own informed consent modifications.
